### Extra Curricular activities

I believe in continuous growth and development not only in my technical skills but also in my personal and interpersonal abilities. To that end, I have actively engaged in extracurricular activities that showcase my commitment to self-improvement and teamwork. For instance, I have participated in coding hackathons, where I collaborated with diverse teams to solve real-world problems under time constraints, enhancing my problem-solving and teamwork skills. Additionally, I have volunteered my coding expertise to develop applications for non-profit organizations, demonstrating my commitment to using technology for social good. I also regularly contribute to open-source projects, which has not only expanded my technical expertise but has taught me the value of collaboration and community in software development. These activities have not only improved my coding abilities but have also allowed me to give back to the community and work effectively within diverse teams
